

CELESTIA - SILVER CHARMS

\$24.59

Celestia product line: silver charms.

DESCRIPTION

With these silver 925 charms you can personalize and create your own Celestia bracelet! Celestia bracelet: as unique as you are. Handmade in Venice by a selected supplier. Any small defects or difference in measures and colours as reported here are to be considered as evidence of this craftsmanship. Note: to insert the charms, you have to rotate them slightly, not push them. How to take care of your bracelet: 925 sterling silver is an alloy composed primarily of silver with the addition of other metals. It tends to oxidize over time, especially if it comes into contact with external agents (perfumes, sweat, skin creams, hair spray, chlorine). The oxidation is therefore not a manufacturing defect. To clean your Celestia bracelet, pour a drop of mild soap in warm water and wash with a soft toothbrush. Avoid harsh products. Silver is malleable: we advise you to have your Celestia bracelet and its charms checked by a jeweller at least once a year: pay special attention to fasteners, welds and frames.
