### DESCRIPTION

The new glasses by MuranoVitrums are inspired by the typical Muranese "**Goti de Fornasa**" (Furnace glasses). The Goti de fornasa were created at each glass factory for the workers of the piazza, **without particular care in giving them an even shape**. The glasses were very different in shape and color so each one could identify its own glass. Nowadays they've become an **exquisite example of Murano glass art and are a great treat for each table**.

Colors may vary depending on the maestro's creativity. For checking available colors or for any preference, contact our customer care. [See also the Set of 6](#).  
Enriched with multicolor *murrine*.

**Handmade in Venice using the ancient Murano glass knowledge.** Each glass is different from the others, hence unique. Size and color could slightly differ from what indicated in this page: it's to be considered as a proof of craftsmanship.
