

MURANO BIKE

\$276.52

Murano glass bike.
In various colors

DESCRIPTION

Cycling is a great passion, it has always been our dream to create a glass object that reproduces the charm of this object, honoring its lightness and proportions.

Hand-made using the traditional "lume" technique, each bike comes in different colors, according to the glassmaster's creativity and imagination.

This makes each artwork almost a **one-off**.

Generally we have in stock three to 10 bikes among which you can choose your favorites in combination of colours.

Made in Murano for MuranoVitrum by our glass master using the ancient **Murano glass techniques**.
