

METEORA DRINKING GLASS

\$104.73

Murano glass fragments added with the hot application technique on mouth blown Murano glass

DESCRIPTION

Meteora: fragments of stars on a Murano drinking glass.

The Meteora (Italian for meteor) Murano glass tumblers collection is a combination of traditional Murano blown glass and contemporary design given by the fragments scattered in relief on the glass surface, as colorful fragments of a falling star.

The fragments are added with the **hot application** technique: find more about this ancient Murano glass technique [on our glossary](#).

This product - like all the artworks sold in our website - is handmade in Venice using the ancient Murano glass techniques for ensuring the highest quality.

Designed and created in Murano by Diego Vio - Antica Murano.
