Sciafae Lovers 29 Cm

DESCRIPTION

A beautiful Murano glass sculpture of two lovers embracing, made in massello Murano glass. Its peculiar colors are due to the Sciafae technique. This a very particular technique obtained by applying thin layers of colored glass on the "pea" the colored glass is blown and then placed in contact with the crystal at the appropriate temperature. Then the glass that has not stuck to it quickly cools off with blows using any of the master's steel instruments
