Avena Vase Large

---

### DESCRIPTION

The sinuous and at the same time minimalist shapes of the Avena vases, easily fit into any decor.

The colors are particularly unusual as they are made up of a bright colored core covered with a layer of light gray (fumè) glass.

Inspired by nature that never repeats the same shapes and lets every life take a unique and unrepeatable shape the Avena vases seem moved by the wind that caresses the fields of oats.

Technique: [soffiato](#) and a revisitation of the [incamiciato](#) that involves the use of its transparent shades instead of the classic milky glass core.

Available in four different color combinations.

We execute it on request and ship it in 5-6 weeks.
