Bunches of grape, available in three different vibrant colours

DESCRIPTION

Bunches of grape, available in three different vibrant colours: orange, green, blue. The skilled hands of the glass master have created perfect shapes: that's why these grapes look real although made in precious Murano glass. The transparencies and the bright colours, recall the freshness and the aroma of this fruit, typical of the Veneto Region. Perfect for decorating the kitchen or the living room, the grapes are available even in a set of 5. Each bunch is different because it is made by hand. Manufactured by Murano Glam in their atelier in Mogliano, near Venice, following the ancient traditional Murano glass techniques.
