Saturno Vase Diameter 12 cm

---

### DESCRIPTION

The Saturno vase, made in our atelier by the best glass masters easily adapts to any decor. All the vases are [mouth blown](#) with two layers, crystal inside and black glass on the surface. It is subsequently cold-finished with the [grinding wheel](#), engraving the circumference with extreme precision. A piece with a minimalist design that surprises for its simplicity and evocation of stellar landscapes. Available in three different sizes.

Designer: Giorgio Barera

We make it on request and ship it in 5-6 weeks.
