Sword Fish - 35 cm

DESCRIPTION

This **Swordfish** is beautiful made in Murano Glass on behalf of the MuranoVitrum by the best master glassmakers. **It's perfect place as a centerpiece or in a special place as decoration.** The technique used is the **Massello**. This process appeared in Murano for the first time in the late 20s thanks to Flavio Poli at the I.V.A.M. furnace of Libero Vitali's where he designed the first figures in full or massello glass.

Once an initial distrust was revealed from the most traditionalist critics was overcome - actually they saw in this technique a betrayal of one of the most important Murano glass features, the lightness, this process has been widely adopted throughout the island.
