Cockatoo Model A

DESCRIPTION

Get the tropical vibes with this bird. **This kind of cockatoo are highly intelligent, inquisitive birds who appreciate a well-ordered life style. This sculpture is perfect for those who loves animals, nature and hot weather.** The technique use is **Massello**; this process appeared in Murano for the first time in the late 20s thanks to Flavio Poli at the I.V.A.M. furnace of Libero Vitali's where he designed the first figures in full or massello glass.

Once an initial distrust was revealed from the most traditionalist critics was overcome - **actually they saw in this technique a betrayal of one the most important Murano glass feature, the lightness, this process has been widely adopted throughout the island.**
