Toucan Red Beak

### DESCRIPTION

---

Have the best company **ever with this colorful bird**. Did you know that the toucan is engraved on the totems as a symbol of theatricality and communication according to Native American tribes?

This sculpture is perfect for those who loves animals, nature and travel. The technique use is "**Massello**", which means that the piece is 'Full', processed under heat by modelling a block of glassy mass applied over the tip of a metal rod. **This process appeared in Murano for the first time in the late 20s thanks to Flavio Poli at the I.V.A.M.** furnace of Libero Vitali's where he designed the first figures in full or massello glass.
