### DESCRIPTION

Get the tropical vibes with this bird. **But not just that, this kind of cockatoo are highly intelligent, inquisitive birds who appreciate a well-ordered life style.** This sculpture is perfect for those who loves animals, nature and hot weather.

The technique use is "**Massello**", which means that the piece is full, and not empty as in the Blown Technique. The glass is processed under heat by modelling a block of glassy mass applied over the tip of a metal rod. This process appeared in Murano for the first time in the late 20s thanks to Flavio Poli at the I.V.A.M. furnace of Libero Vitali's where he designed the first figures in full or massello glass.
