

MURANO GLASS SPIRAL CLOUD

\$2,151.37

Dance of joy

DESCRIPTION

The first years of the millennium were marked by a great scientific enthusiasm for DNA mapping. Perhaps we owe to this subliminal influence the series of sculptures with the inclusion of a double helix of colored reeds. Stefano Toso, designer at his own company, gave us an important, albeit limited, quantity of objects with the imprint of the helix. We consider ourselves lucky to be able to offer you one of the last original pieces of that era.

Technique: [Sommerso](#), [massello](#), [baloton](#). [cold grinding](#)

Designed by [Stefano Toso](#).

Created by [Romano Donà](#)
