

## AVVENTURINA BOTTLE VASE

~~-\$2,646.23~~

SPECIAL PRICE \$2,116.98

Dark battuto vase with inclusion of avventurina

### DESCRIPTION

---

Elegance is sought in the shape of this vase.

We are not aware of other pieces of these features, only one is available.

It was made by master [Vittorio Ferro](#) in the Fratelli Pagnin atelier.

Signed with a diamond point and certificate.

A very limited series of these vases were made between 2000 and 2010.

These are objects that can hardly be remade with this level of beauty, especially note the quality of the [aventurine](#) tiles used and the skill in combining them.

Usually you can find objects of modest lotus size, this series of vases represents a great and refined experiment, which opens the doors to new possibilities in the use of a fascinating and unpredictable material such as aventurine.
