DESCRIPTION

We commit our glasswork to the most requested glassmakers in Murano, younger masters frequently try to make similar subjects, but hardly they has the experience necessary to arrive to the same results in terms of quality and visual impact.

This glasswork is executed "a lume". It means that a single master makes the piece using a gas flame to fuse and to model sticks of colored Murano glass.

This product has been handcrafted by Cristiano Balbi in his atelier in Spinea, near Venice, using the traditional Murano techniques.
