DESCRIPTION

Clown glass

Glass obtained melting together under heat of the typical murrinas of Murano.

The murrinas and the glass canes are inserted one by one.

Due to the peculiarity of the technique, **each piece is absolutely unique as pattern.**

If you want, we can show you a picture of the glasse before sending it to you.

This product has been handcrafted by Cristiano Balbi in his atelier in Spinea, near Venice, using the traditional Murano techniques.
