SPECIAL PRICE \$2,414.61

Blown Murano glass vase with fishes

---

### DESCRIPTION

This peculiar vase is a signed piece made in 1998 in Murano by maestro Giuliano Tosi. Why peculiar? Because of the techniques used: it is made in blown Murano glass with the inclusion of fishes, designed and prepared by the artist and made in furnace instead of with the a lume technique - used in almost all the Murano glass aquariums produced nowadays - as happened with the first aquariums made in the 50's by Cenedese (read more on [our blog](#)).
