

MURRINE AMBIENTE LAMP - LARGE

\$834.14

White table lamp with murrine

DESCRIPTION

Delicate and minimal design, black and white lines: simple but at the same time sophisticated. A charming and well balanced shape which fills the environment with a suffused and vibrant atmosphere. Colour is another important aspect of the Ambiente lamp personality: more than a lamp, Ambiente is pure emotions. Designed and handmade by I Muranesi in Murano, using the antique Murano glass techniques. Small variations in details and dimensions are due to the handicraft process. Lightbulb socket: E27. Also available with other international standards. Note: the artwork has an elliptical profile, not round: wide in front, narrow in profile. Electric cord comes out on the side bottom, not the back. Due to high demand, waiting time for shipment can be more than 30 days. Check availability writing a message to our customer care. How are these lamps made? See video below
