DESCRIPTION

The beads have a simple, rounded shape, but the silver structure and the intense colour of the beads give the earrings a more sophisticated appearance.

They are manually set in a expressly made, silver frame.

They are made with a process similar to the "sommerso" technique, that consists on a layer of coloured glass with the inclusion of a platinum leaf coated with a crystal layer.

The glass has been handcrafted in Venice, then mounted and finished in Florence by the Gabriella Nanni atelier
