### DESCRIPTION

---

Small Glass Christmas ball made with the traditional Murano glass blowing technique. Each ball features different inclusions of **murrinas** conceived by the artist: in this way each ball is different from the other and can be considered a unique piece of art. The colours are enriched by inclusion of a gold leaf.

Hand-made in Murano by Manzini using the ancient Murano glass techniques. Any small defects or slight variation in measurements are to be considered as evidence of this craftsmanship, and especially as an evidence of uniqueness of each single piece.
