DESCRIPTION

Heart shaped decoration created using the traditional Murano glass blowing technique. Each heart is decorated with **murrinas** and colourful glass inclusions conceived by the artist. In this way each product is different from the others, a unique piece of art.

It can be used as a Christmas tree decoration.

Handmade by Marco Manzini in Murano using the traditional Murano glass techniques. Any small defects or difference in measurements and colours as reported here are to be considered as evidence of this craftsmanship, and especially as an evidence of uniqueness of each single piece.
