DESCRIPTION

These goblets are the best meaningful expression of an art begun in the 18th Century: during the 18th and the 19th Century they were very much appreciated as wedding gifts. They are of extraordinary craftsmanship, consisting of a cup supported by a finely worked stem, mouth-blown and hot assembled. Every component can be considered as a little masterpiece. Variations in the size and shape are due to the craftsmanship method: the master glassmaker creates and decorates each cup by hand, without using molds. Each goblet is a unique piece, impossible to duplicate. Made in Murano for MuranoVitrum by a selected glassworks, using the ancient and traditional Murano glass techniques. Available in cyan, red, violet with golden decorations.
