

TIPETTO GOBLET WITH GOLD DETAILS

\$755.13

Tipetto with gold details

DESCRIPTION

These pieces are collectibles, art objects of classic design, and absolutely unique! The "Tipetto" is part of the typical Murano glass production. **The most ancient and valuable pieces are shown in museums around the world.** Calling it just a glass is an understatement: it can be defined without doubt a precious piece of luxury, a true work of art. They are of extraordinary craftsmanship: the parts are mouth-blown and hot assembled. Every component can be considered as a little masterpiece. Variations in the size and shape are due to the craftsmanship method: the master glassmaker creates and decorates each cup by hand, without using molds. **Each goblet is a unique piece, impossible to duplicate.** Made in Murano for MuranoVitrum by a selected glassworks, using the ancient and traditional Murano glass techniques.
