DESCRIPTION

Designed in the 90's by Stefano Toso, handmade in Murano by [Romano Donà](#), the vases belonging to the "Arthur Collection" are a tribute to the legendary King Arthur and are nowadays very difficult to find on the market. This vase is made of **incamiciato** glass, with inclusion of **coloured canne**, then grinded to obtain a smooth and perfect finish. The very complex techniques used on a vase of these dimensions and the flawless results show the great skills of the maestro Romano Donà. See also the Green version.
