

VENICE HANGING LAMP

\$323.43

Murano glass lamp with silver leaf, cannas, murrinas.

DESCRIPTION

Murano glass lamp with silver leaf, cannas, murrinas.

The beauty of this mouth blown glass Lamp comes from the number and complexity of techniques used for its creation. On the bottom, the colours are enriched by ivory glass powder, added when the vase is still melting hot. The inclusion of a silver leaf - that shatters during the mouth blowing process - creates some mesmerizing light reflections. The **murrinas** - created with the **a lume** technique - and the **cannas** are added to make this vase even more precious and unique.

Designed and handmade by the **maestro** Damiano Ragazzi in Venice, using the ancient Murano glass knowledge.
